PROJECTS

LIBROMATE – A BOOK SHARING APP
PHP, MySQL, HTML, CSS, JS | Github Link
A Web Portal where we can share our books with others and borrow their books if we need them. Was appreciated a lot by the faculties and peers

WAIT OR WATCH – TV SERIES REMINDER
Python | Github Link
Wait or Watch is a CLI script which reminds you the release date of the next episode of your favorite TV Series. I used the BeatifulSoup library in python to scrap information from IMDb and send it through email.

CREDIT MANAGEMENT SYSTEM
PHP, MySQL | Github Link
This app can be used to transfer credits from one user to another. Also, records all transfers happened.
